Route

Depending on the sea and prevailing wind conditions, we will do the route through the east of the island or west to enjoy the ride in complete safety. For this reason the 2 coves will be chosen by the captain depending on the best areas to anchor this specific day from: Cala Saona and its surroundings, Playa d'Illetes, S'Espalmador, Fa de la Mola, Es Caló, La Savina, Es Pujols, Cavall d'en Borràs beach, Migjorn or Llevant Beach.

Covid-19 Rules

We're out at sea, as open-air as you can get, all the time moving, all the time with a decent breeze - it's the least 'stuffy' or enclosed event venue to be at a time like this.

Due to the higher amount of hygiene regulations and rules we need to follow now, we would like to collect a donation of 2€ upon each clients arrival to cover these costs.

Luckily we have the biggest boat on the island - that means we can reduce the event capacity by 70% to 100 people to ensure the physical distance of 1.5 meters. That makes our events even more exclusive.

Despite of that, we've implemented the following rules and regulations to ensure the safety of us all:

- All sanitary facilities are equipped with hand sanitisers and are cleaned and disinfected every 30 minutes.
- All guests will have their allocated and reserved VIP area or seats.
- We kindly ask everyone to stay in your allocated area as much as possible to avoid long queues at the bar.
- We can't offer table service at the moment. Please order drinks at the bar.
- Please keep the minimum distance of 1.5 meters when queuing.
- We offer contactless payment options onboard.
- We kindly ask you for your understanding that there might be longer waiting times (at the toilets as well as for food and drinks) due to the health and safety regulations we are following. Thanks for your patience and understanding. Please follow the instructions of our staff when asked.
- Our staff wears masks and gloves.

- Guests need to wear masks when entering and leaving the boat. Under current regulations, masks need to be put on all the time. You're allowed to take it off when drinking and eating.
- Please follow the social distancing rules of 1.5 meters. (Please note that all photos have been taken last year. This year we cannot stand and sit as close as the people on the photos.)
- The execution of the towel service depends on the government regulations. If executed, all towels are washed at 90°C and disinfected after every event. Under current regulations, we cannot offer the towel service.
- The usage of the snorkelling equipment depends on the government regulations. If used, the equipment is disinfected after every client and event. Under current regulations, we cannot offer the usage of our snorkelling equipment. If you want to snorkel, please bring our own equipment.
- No use of paper menus and drinks lists.
- We only use organic single use cutlery, plates and cups. No use of reusable cups due to hygienic reasons. Please keep your cup as long as possible to protect the environment. Let's take care of our planet. Every additional cup will be charged with 1€.

Keep in mind that the Covid-19 rules and regulations are constantly being adapted to the current situation. You can always find our actual Covid-19 rules on our website: <https://ibizaboatclub.com/pages/health-safety>
